

Office of Attorney General Bill McCollum

2010 Course Offerings for: Crime Prevention Through Environmental Design for Architects, Planners and Engineers

St. Augustine

Tuition: \$350

Course No. 260-10-01

January 13-15, 2010

Course Time: 8:00 a.m.—5:00 p.m.

Description: Crime Prevention Through Environmental Design (CPTED) is a tool for identifying, preventing, and solving crime problems. It is a process, a way of thinking about crime and how to deter it. CPTED brings together law enforcement professionals, architects, local planners, residents, and local government to examine how an area's physical features influence crime and the opportunity for crime. Physical features can be designed or modified to reduce the vulnerability of crime. Cities and counties throughout the United States are adopting CPTED ordinances that require site plan reviews with crime prevention strategies in mind.

This training is designed for the professional in the fields of architecture, planning, engineering, and government, who are concerned with properly designing the communities of the future. During this three-day (24-hour) course various CPTED strategies will be discussed, to include; designing out crime programs, comfort station design, the use of color and human behavior, barriers: real vs. symbolic, terrorism, parking lots, lighting, planning and zoning, public art, and ordinances/overlay districts. In addition, participants will learn how the design and use of the environment can control human/criminal behavior, reduce the fear of crime, the use of crime prevention through natural means, and how natural access control, and natural surveillance decrease the opportunity for crime.

Location & Lodging:

This course will be held at the Renaissance Resort at World Golf Village, 500 South Legacy Trail, St. Augustine, Florida 32092. For reservations call (800) 266-9432. The room rate is \$99.00 and reservations must be made by December 13, 2009.

A tuition check must accompany the registration. For additional information, contact Ed Isbell at (850) 414-3359.

24 hours of Continuing Education Units (CEUs) for Architects, through the Department of Business and Professional Regulation (DBPR); and a PDH value of 24 for Engineers through the Florida Board of Professional Engineers (FBPE) have been approved.
